BAPTISTS RALLY FOR ANNUAL MEET

GOSPEL TEAMS TOUR DISTRICT AUG. 29 TO BOOST SESSION.

EXPECT 300 AT 3-DAYS MEETING NEXT MONTH

Prominent Leaders in Work Will Address Laymen and Delegates at First Baptist Church Here.

Preparations are under way for the annual meeting of the Northwest Missouri Baptist Association, to be held in the First Baptist church here, September 7, 8 and 9. The association comprises about thirty-five Baptist churches and affiliations of Nodaway, Holt and Atchison counties and the north part of Andrew county.

Between 300 and 400 Baptist leaders of the association are expected to attend the three days' session. It will be presided over by Representative Charles Hyslop of this city, who is moderator, or president of the association. James S. Gore of Rock Port is secretary, while a board of missions has charge of arrangements for the meetings.

The sessions will be along the usual lines, the objects being to transact the usual routine of business and consider moves for greater advancement of the Baptist churches and affiliations in the association.

Will Be Special Addresses.

One of the "imported" speakers of the session will be Dr. C. D. Miller, president of the Central Baptist association, of Kansas City. He will speak to the laymen of the churches at the special laymen meeting on Wednesday night, September 8. The Rev. A. M. Kirchland of Forest City, district superintendent, will also speak and be in charge of the meetings.

This is the first time the association has held its annual meeting in Maryville for four or five years.

A general rally to create interest and enthusiasm in the district for the association meeting here next month will be conducted by the Baptist leaders of this church Sunday, August 29, under the direction of Dr. Karl Malotte.

Plan Rally for August 29.

Three gospel teams, made up of the leading men workers of the local Baptist church, will conduct several meetings each that day. They will take on workers from each of the places visited, and bring them to Maryville that night to attend the general rally to be held in the First Baptist church, beginning at 7 o'clock. Although it will take the place of the regular Sunday night services, it will be along different lines. Instead of a sermon by the Rev. Lewis M. Hale, pastor, there will be several talks by the principal workers of the district.

One of the gospel teams under the direction of District Superintendent Kirchland will go to New Hope church, six miles northeast of Hopkins, for a special rally service at 9 a. m.; then to Hopkins for a meeting at 11 a. m.; to the Central Friendship church, thirteen miles northwest of Maryville, at 2 p. m., and Clearmont church at 4 p. m.

Another gospel team, under the direction of Prof. W. M. Westbrook, will hold a special meeting at the Platte Valley church, south of Bolckow, in Andrew county, at 9 a. m.; at two more Baptist churches in the north part of Andrew county.

To Pick Team Members Soon.

The third gospel team, directed by Senator Anderson Craig, will go to the White Cloud church, southwest of Maryville, for special service at 9 a. m.; to Graham at 11 a. m.; High Prairie, southwest of the city, at 2 p. m., and to the Old Bethel church, near Elmo, at 4 p. m.

The members of the three gospel teams have not been definitely selected yet, but will be chosen soon.

The rally next Sunday takes the place of the one to have been held several weeks ago, but which was postponed on account of the weather and road conditions.

Dinner and supper may be served at the church to the visiting delegates to the association meeting here.

Police Recover Bodies of Dead Following Hurricane—Many Can't Reach Business Section.

Special to The Democrat-Forum.

St. Louis, Aug. 21.—Ten bodies have been recovered by the police from the section of the city that were flooded when the hurricane storm struck here Thursday night. The receding waters have permitted rescuers to make a thorough search of the houses in the flooded area.

Hundreds of persons over the city are still unable to reach the business section yet, on account of the overflow waters, but conditions are improving.

St. Louis, August 21.—Eight of the dead in St. Louis from the storm which swept here yesterday were negroes. Considerable damage done by the overflowing of Wood river and Cahoka creek.

Many residents of Alton and Edardsville are imperiled by the floods.

Wood river left its banks, flooding the towns to a depth of ten feet in places. Warnings sent down the valley of the coming flood resulted in everybody being able to escape, it is believed.

The rainfall in two days has been eight inches. Militia is aiding in rescue work.

MARYVILLE BASE BALL NINE EASILY WON $125 TOURNEY PLUM.

DEFEAT BEDFORD 4-0

Hopkins Was Defeated Yesterday 6 to 7, and Won Third—Plan Tournament Here Next Week.

Final Standing in Tourney.

Results Yesterday.

Maryville 4, Bedford 0.
Clearmont 7, Hopkins 6.

The four-team base ball tournament which ended at Hopkins yesterday afternoon after a three days' contest, in which each team played three games, was "easy picking" for the Maryville Federals, one of the contesting teams. As a result the Fed treasury is $125 the richer, having won first prize.

The Maryville Federals won each of the three games, first from Clearmont, second from Hopkins, and last from Bedford, Ia. Clearmont came out second, thereby winning second prize of $100; Hopkins closed by taking third prize of $75, while Bedford held the sack and got a measly $50.

A base ball tournament is to be held at the Normal grounds here next Wednesday, Thursday and Friday, between four teams of Nodaway county, Cleve Funk, manager of the Fed team, announces. A final solicitation for the guarantee fund is being made today. The teams which will enter the tournament have not been definitely selected.

Willey Fanned 18 Yesterday.

Another tournament will be held at Clearmont September 8, 9 and 10.

In the first game yesterday afternoon Hopkins was defeated by the Clearmont team by a score of 6 to 7.

In the second game, between Maryville Feds and Bedford, Willey, pitching for the local team, struck out eighteen men out of twenty-nine who faced him, and allowed but one hit. Only two Clearmont men got on first base during the game. That being in the second inning, on the lone hit and an error by Lynch, playing second base.

A feature of the game yesterday was the usual home run hit by Richardson, catcher, in the eighth inning. It resulted in the last two runs, Richardson scoring Lynch, who got to first on an error and stole second, also himself. The drive was in the usual place—to deep center field.

The first score came in the third inning, when Tilson took first on an error, got to second on a single by McClain and came home on a double by Palfreyman.

The next score was in the seventh, when Lynch doubled and went to third on a fly ball to right field by Richardson and scored on a passed ball.

Rickard of Creston succeeded James McClymens as umpire yesterday, on complaint of Hopkins. The score:

Invaders Continue Advance on Entente's Eastern Aid—Last Victory Released Reinforcements.

Special to The Democrat-Forum.

Berlin, August 21.—The Germans have invested Brest-Litovsk on three sides and are shelling the fortifications with heavy guns. The fall of this last Russian stronghold in Poland is expected soon. It is the chief military depot and concentration camp of Russia.

The capture of Novo Georgievsk released 150,000 soldiers, which can now be used for the assault on Brest-Litovsk and elsewhere. The Russians still hold Grodna and Oscowiec.

Vienna, August 21.—Dispatches from the front say that two hundred thousand Russians in and near Brest-Litovsk are being cut off from retreat by the Teutonic forces, and that the fall of that fortification and the capture of the Russian soldiers is only a matter of time.

Berlin, August 21.—It is announced that the Germans have captured Beilak, thereby blocking all efforts of the Russians to rush additional troops to Brest-Litovsk. German advance all along the lines continues.

BULGARS A MENACE

BULGARIA BREAKS ALL NEGOTIATIONS WITH TURKEY, REPORTED.

BOTH READY FOR WAR

Ottomans and Balkan State Country Are Concentrating Armies Along the Line.

Special to The Democrat-Forum.

London, August 21.—It is reported that all negotiations between Turkey and Bulgaria have been broken. Both countries are concentrating large armies near the border, prepared to begin assaults at once.

That Bulgaria will soon strike for the allies, is indicated in all reports from Balkan state points. As Bulgaria borders along the entire west line of Turkey-in-Europe, it would be a serious menace to Turkey. Adrianople lies within a few miles of the Bulgarian border.

John McGuire, Pickering, Struck Alonzo Fine Week Ago, State Alleges—Released.

John McGuire of Pickering, charged by the state with having assaulted Alonza Fine at Pickering last Sunday, following a quarrel, voluntarily gave himself up to Deputy Sheriff Dee Callahan this morning, and gave bond for $200 for his appearance in circuit court here next month on a charge of common assault. C. L. Epps went his security for bail.

The two young men were fairly good friends, but got to quarreling about a trifling matter, it is said, when McGuire struck Fite.

FIND DARDANELLES HARD NUT

British Officers Conclude Allies Will Have Hard Time to Take Turk Stronghold.

Special to The Democrat-Forum.

London, August 21.—Matters are progressing slowly in the Dardanelles and it is likely to prove a very tough job. Such was the conclusion of two transport officers who arrived in London this week from the Mediterranean. One of them said:

"The recent incursion into Mediterranean waters of German submarines has undoubtedly complicated matters. As a result the fleets have been forced to quit the Gulf of Saros and take up their quarters off Lemnos, where they are protected by the steel nettings.

"Already the German submarines have been caught in the nets at the Dardanelles. One was the vessel which had tornedoed the Majestic and the Triumph. Both the submarine and crew were taken by Malta, her German commander, saying that had it not been for the lack of torpedoes he would have sunk the whole of the allied fleet, as not a soul had suspected the presence of submarines there. Which was true.

The loss of life when the Manitou was struck was due entirely to the capsizing of a boat. The men simply stampeded over the side and jumped into the water. So great was the panic that although machine guns and ammunition were in position on deck, it never occurred to anyone to use them against the enemy boat.

Another unexpected element contriubted to add to the scare. This was due to the discovery of a number of German stowaways on board just as the troops were about to be disembarked. They had boarded the vessel at Alexandria and as soon as they were discovered they disappeared mysteriously.

Transports do not go by night any longer to Sedul Bahr, but transship the troops at Lemnos on board small, swift boats which run them across to the peninsula.

Suit for $2,000 damages was filed in circuit court today by Charles McIntyre of Hopkins, against the Burlington railroad, for the wreckage of an automobile valued at $600 and injuries to himself, when a Burlington train struck his car at Hopkins August 12, 1914. He says the car was demolished and that he was thrown to the ground and bruised.

PLAY CLARINDA TOMORROW

Maryville Federals Will Contest With Fast Iowa Team Here—Won Last Time.

The Maryville Federals will play the fast base ball team of Clarinda, Ia., at Federal park here at 3 o'clock tomorrow afternoon. The Feds defeated the Clarinda team here on June 27 by the score of 9 to 4, but it is reported that the Iowans have strengthened considerably since them, so that a really close game is anticipated.

The Feds will have nearly the usual lineup, Willey being in the box and Richardson behind the batter. Tilson will continue the nifty work on the initial base, Lynch of Stanberry may play second base; Scott will play third, Palfreyman shortstop, while Miller, Carmichael, McClain and Morse will be candidates for the outer pasture work.

The Clarinda team will probably have Towne, who pitched here the other time, in the box, or perhaps that nifty pitcher by the name of Galloway.

HOME DAMAGED BY STORM

P. J. Gallagher of Houston, Texas, Suffers Heavy Loss—Formerly Lived at Maryville.

The home of Mr. and Mrs. P. J. Gallagher of Houston, Texas, former Maryville residents, who have been living in Texas for several years, was badly damaged during the recent storm which swept over the Texas coast cities. None of the Gallagher family were injured. The news of the damage to their home was received in a letter written to Mrs. Gallagher's parents, Mr. and Mrs. M. Tobin, of West Cooper street.

The Gallaghers built their home about two years ago. It cost about $8,000 and is in one of the best residence districts of the city and this district was the one that was almost devastated in the storm. A part of the roof was blown off and the entire contents of the house and the interior finishings were completely ruined. Mrs. Gallagher wrote that their own loss, heavy as it was, was much lighter than the most of their neighbors. She had not learned at the time of writing, the extent of the damage in the business section.

Mrs. Gallagher and children had returned to their home about three weeks ago from a visit in this city with her parents, and with her sister, Mrs. J. B. Cummins.

ARABIC CASE MAY FORCE U. S. TO ACT

ADMINISTRATION ADMITS CRISIS WITH GERMANY IS NEAR.

NOW UP TO BERLIN TO EXPLAIN; AWAIT REPLY

Washington Officials Anxiously Seek Details of Torpedoing of Vessel With Americans Aboard.

Special to The Democrat-Forum.

Washington, August 21.—President Wilson and Secretary of State Lansing are conferring this afternoon on the Arabic situation. The American ambassador at Berlin has been instructed to ask the German government if it wishes to explain relative to the sinking of the Arabic, causing the loss of American lives.

Washington, August 21.—It is frankly admitted that the crisis between the United States and Germany, following the Arabic sinking, with American passengers aboard, is serious.

The administration is suspending judgment until official investigation is made, but views with alarm the increasing activity of the submarines, fearing that the German party favoring the sinking of all ships, regardless of passengers, is in the ascendency.

It is considered certain that the American ambassador must leave Berlin unless Germany disavows the sinking of the Arabic or offers a legal excuse.

The administration does not want to call on extra session of congress now, through fear that it would be a menace, rather than a benefit to the continuance of peaceful relations, but many prominent in the administration are bringing pressure on the president for immediate action rather than words.

London, August 21.—The White Star offices here today announced that forty-five passengers drowned when the Arabic went down off the south coast of Ireland Thursday, when torpedoed by a German submarine. It is not believed that any still missing will be found alive.

Two bodies were found in lifeboats five miles from where the Arabic sank. The search for bodies is being continued.

It is understood that the Arabic carried between $10,000,000 and $15,000,000 worth of American securities for New York houses.

London, August 21.—The government has announced that the Arabic was not being convoyed when torpedoed by a submarine.

American Ambassador Page is taking statements of survivors for the purpose of furnishing the U. S. government with the real facts leading up to the sinking of the Arabic. All agree that there was no warning given.

New York, August 21.—White Star line officials announced this afternoon that Fred Burgess and wife, are also missing, making four Americans lost when the Arabic was sunk.

Thirteen British merchant vessels of a gross tonnage of 22,970, fell victim to the German war zone decree, during the week ending August 18. Two were mined and eleven sunk by submarines. Some small fishing vessels also were sunk.

More than thirteen vessels, most of them of good size, have been sunk since August 18.

German submarines have caused the death of 1,736 civilian non-combatants, including 118 Americans, since German warfare on merchantmen was formally launched February 18.

The Lusitania death toll of 1,157 on May 7 was the largest. The liner Falaba was sunk March 28 with a loss of 111 lives.

England needs more fly swatters.

Its tough when a flood causes a water famine.

Where are all those torpedo boats Great Britain was going to chase the submarines with?

Chester Bennett must feel relieved that he doesn't have to be reappointed city clerk next month.

St. Louis had a 5.2-inch rain in sixteen and a half hours and calls it a flood. Maryville had a 6.8-inch rain in twelve hours and regarded it as a normal shower.

Just when Uncle Sam was getting public opinion rocked into quiet, and it was getting over its colicky spell, up comes another German submarine and down goes another ship with Americans on board. This creates a very delicate situation. It is the only answer Germany has given to the last vigorous protest sent by our government against sinking ships carrying Americans without giving them a chance for life. According to the reports so far received the Arabic was given no warning of the intentions or presence of the submarines. Passengers were therefore given no more chance than in the case of the Lusitania, and it was only because of extra advance prepartions that a great loss of life was avoided. The Arabic was coming toward the United States and carried no war munitions or contraband goods. Americans who were on board were, of course, coming toward their own country. The American people and the American government have hoped and still hope that there will be no rupture of friendly relations between the United States and Germany, but each of these accumulating incidents can but serve to add to the already broad suspicion that the German government does not share in this solicitude. It is a matter to which the administration must continue to give its prayerful consideration, and the people must support it in whatever follows.

GEORGIA ON TRIAL.

It has now been made clear what amount of courage and nerve Ex-Governor Slaton of Georgia exhibited when he acted upon his own judgment and sense of justice and commuted the sentence of Leo Frank to life imprisonment. He acted in defiance of the blood thirsty mob that has disgraced the state. It was the same mob that threatened his life if he did his duty as he saw it, and it is the same mob that still threatens him for having done so.

It remains to be seen whether the present governor has the courage to begin and carry through a house cleaning and rid the state of this disgraceful blot. He has ordered an investigation, but whether it is to be real or nominal is yet to be seen. It is very probable that scores of men know to a certainty who some or all of the men were who openly defied law and order in their thirst for blood. He can make a good beginning by changing the prison officers who made it possible for a few men to take a defenseless man from their custody without a struggle.

It makes no difference now whether Frank was guilty or not. He had been convicted and had begun to serve a life sentence under the protection of the state of Georgia. Every man who in any way aided or abetted in hanging him without the sanction of law is guilty of murder. That much is certain and admits of no argument.

Grand old Missouri; grand, beautiful, magnificient Missouri; fertile, bounteous, exhaustless Missouri; enterprising, majestic, imperial Missouri; and educated, intelligent, God-fearing Missouri are appellations first used by William H. Wallace in an apostrophe to Missouri in a campaign speech in 1892. Like Mr. Wallace, thousands of other Missourians can say: "You are good enough for me."

Ott-Wells.

The following account of the marriage of Mr. Charles Edwin Wells, librarian of the State Normal school, and Miss Lulu Elizabeth Ott of Gardner, Kan., which was announced exclusively in The Democrat-Forum on August 12, is taken from the Olathe (Kan.) Mirror of the 12th inst.:

A quiet wedding took place at the home of William J. Ott and wife at Gardner, August 8th, at 8 p. m., when their youngest daughter, Miss Lulu Elizabeth, was united in marriage to Charles Edwin Wells of Maryville, Mo.

"Before the ceremony Miss Lena Moore sang "Give Me Your Hand, Love," followed by "O Promise Me," sung by Miss Helen Ott, niece of the bride. The bridal couple entered the room to the strain of the Lohengrin wedding march, played by Miss Amy Moore, and took their places before a bank of ferns and potted plants.

The ceremony was performed by Dr. Davis, pastor of the Presbyterian church at Gardner, of which the bride has been a faithful and efficient member for a number of years.

The bride looked very lovely in her wedding gown of white net and lace. She carried a large shower bouquet of pink Killarney roses. The groom wore the conventional black.

Only relatives of the bride and a few of her most intimate friends were present. The happy couple left immediately for California, where they will visit the fairs at San Diego and San Francisco, after which they will visit friends in Washington and Oregon. On their return from their trip they will make their home in Maryville, Mo., where Mr. Wells has a position in the State Normal school.

Miss Ott is one of Gardner's most highly esteemed young ladies. She is also well known in Olathe. As a musician she probably is not excelled in Johnson county, and her music pupils regret to see her leave for her new home. The groom is not so well known here, but judging from the kind of a husband Miss Ott would choose, he is of sterling quality. They were classmates in Park college and were graduated with the class of 1903.

GIVES 10 SONS TO ARMY; 3 DIE

French Woman Sees Brave Scions Drop, One by One, on Battle Field.

Special to The Democrat-Forum.

Paris, August 21.—One French family has given ten sons to the army, three of whom have already fallen on the field of honor. The first to fall was the eldest, Lieutenant Joseph de L——. He met his death on the morrow of a mention in dispatches for conspicuous bravery. Then fell one of the twins, Albert and Antonie, who had been fighting in the same regiment side by side. The survivor writes:

"My poor, poor mother."

"Yesterday, at 4 in the afternoon, I saw my poor twin brother fall at my side with a bullet in the head. He had done his duty but too well. He was always exposing himself. He died in my arms. We avenged him. No German could reach us. One hundred lay where they fell before our rifles."

Later it is proud news that reaches the mother of heroes. Her daughter-in-law writes:

"I have just learned that Louis has received the Cross of the Legion of Honor. General Joffre himself decorated him, and gave the accolade."

A month, and death again knocked at the door. Louis, the newly decorated hero, has fallen at Notre-Dame-de-L rette. Yet the spirit of the family is not broken.

These cruel losses, writes another son, Guy de L., volunteer soldier, must only serve to strengthen our courage and our firm resolve to avenge them.

CALL HIM COWARD; SUICIDES.

British Youth, Taunted by Women for Not Enlisting, Takes Life.

Special to The Democrat-Forum.

London, August 21.—One of the so-called "white feather" brigade was so much worried by the attacks made on him by the taunts of the women that he has just committed suicide at his home in Shepherd's Bush. He was a chauffeur named Richard Charles Roberts, and it was said at the coroner's inquest that he had tried to enlist, but had been rejected on account of a weak heart. This of itself had depressed him, but when some women taunted him and called him a coward, life became unbearable to him.

The Shepherd's Bush coroner gave some of these women a lecture. He described their conduct as abominable, and added:

"Here was a man who was driven to death by a pack of silly women, who knew nothing about the circumstances which had prevented the deceased from becoming a soldier."

Don't Forget It, Here's One of The Big Features of a Mighty Big Fair

CAPT. J. H. WORDEN, With His Moisant Military Monoplane

The Seige of Liege

The Greatest Aerial Bombardment—Reproducing a real battle in the clouds and the destruction of a Fort! See at Home what occurs in Europe daily. Exciting and instructive. This act is a thriller and highest priced aeroplane attraction before Amercan people.

HERE'S A FEATURE that alone is worth coming many mil-s to see. For it isn't very often that you get to see an aeronaut like Capt. Worden, the kind who is spactacular and instructive as well. In these days of scientific flying it isn't the aviator who takes the greatest chances that proves the most popular with the spectators.

NOW CAPTAIN WORDEN combines the spectacular with the practical and educational. He thrills you with brilliant flights and reproduces for you scenes like those that are taking place in the great war in Europe every day.

HIS "SEIGE AND FALL OF LIEGE" makes probably the most individual piece of fireworks ever attempted. The fiery attack from the air, the return fire of the guns and the explosion of the Fort—reproduces for you one of the greatest battles of history, the capture of the great Belgian Fort by the Germans.

THE FACT that the big Texas and Oklahoma State Fairs will have Captain Worden to give exhibitions, and after the officials of these fairs had made investigations as to the ability of a number of other well known fliers, ought to be proof enough of what a big feature this is for the Maryville Fair.

AND REMEMBER THIS The Big Maryville Fair isn't depending on one or two features. Something Big Every Day that will make it really worth your time. There's fearless Blondin, the real one ring circus, J. K. Wright, the baloon man, the Four Casters and the Peerless Potters Family. Every one a high class entertainment. Read about them from time to time.

Do You Want A Farm in The West? Homestead One From The Goverment

Is the United States overcrowded? Or is there still a chance for the man of pioneer spirit to "go west" and make his living from free land, as in the old days?

A partial answer to these questions is found in the recent action of Secretary of the Interior Lane opening to entry, under what is known as the enlarged homestead act, areas of land in Montana, Idaho, Oregon, Utah and other states. Nearly 100,000 acres in Eastern and Central Montana, for instance, were made subject to entry.

A man can go there and "stake a claim" just as in the old days. He can obtain 360 acres, and, after living on it three years, can establish a title to it. But the thing is not as easy as it looks on paper.

The homestead act was designed to give hard-working men homes. It was worded in such a way that it would be of no benefit to lazy men. When a man takes up 360 acres he must cultivate one-sixteenth of it, or else, after his three years' probation is over, he is unable to perfect his title.

But even though a man be willing to work hard and long, how is he going to go about getting the land. This, probably, is the hardest part. One of the bureaus of the Department of the Interior is known as the General Land Office.

This office says frankly that it furnishes no more definite information as to the location or character of the vacant land than is found in a simple table, stating how much land is available in the different counties of the various states, with a few words designating the general character of the land, such as "broken grazing," "prairie grazing," "good for farming," "semimountainous with fertile valleys," "timber," etc.

Persons who desire to make homestead entry should first decide where they wish to locate, then go or write to the local land office of the district in which the lands are stiuated and obtain from the records diagrams of vacant lands. This advice is given by the General Land Office in Washington, which has general charge of such matters.

If a homestead seeker wished to make thorough preparations he might then pick out the state and county in which he wants to locate and write to the Department of Agriculture for a description and analysis of the soil. Finally, in case he meets any difficulty in getting advance information, he can write to his representative in congress. But in any event, before he can make a real start in the new venture, he must make a personal inspection of the land.

Circular 335, which should be asked for in addition to circular 290, gives a general list of the vacant lands in the United States which may be entered under the enlarged homestead law. There is a total area of 290,753,133 acres subject to entry in different states.

PROPER WAY TO MAKE COFFEE.

Beverage Requires Care in Its Preparation if One Would Have Best.

All the world loves a good cup of coffee. The average housekeeper seems to think, however, that all that is necessary is to put in the coffee pot coffee, and a little hot water, and let it take care of itself, to come to the table as luck determines, either palatable or so muddy and weak as to be undrinkable.

While a percolator is best for making the beverage, as it can then be made at the table and boiling water assured, still good coffee is made in the old-fashioned coffee pot. Be sure that the coffee is properly ground and roasted, and do not have it ground too fine, as when too finely ground it makes muddy coffee, and be sure to put into the pot a tablespoonful of coffee for each cup to be served, and one for the pot. Settle with a part of an egg, and use boiling water, allowing the coffee to boil for a few seconds. Do not use a whole egg each day for clearing coffee. Break a small hole in the end of the shell and use only a part of the egg. Then wrap the egg in a cloth and keep it in a cup in a cool place. It will then serve for several days. Some housekeepers mix well-beaten eggs with a pound of coffee and let dry in a warm oven, taking care not to burn by stirring often. This makes coffee taste just as good as if it were added just before using, and saves trouble.

If you use a percolater, fill the upper part with the coffee, press it down firmly, then gradually pour on the boiling water, having previously measured the amount required. Put on the lid and let the liquid run through, remembering that the slower the water is added the better the coffee. For cafe noir a tablespoonful of ground coffee should be allowed for each sup.

EARL COOPER WINS ELGIN ROAD RACE

Gil Anderson Second and Barney Oldfield Third In Auto Run.

Elgin, Ill., Aug. 21.—Earl Cooper, driving an American made car at the rate of 74.97 miles an hour, won the Chicago Automobile club trophy road race. His time for the 301 miles was 4:01:32. His team mate, Gil Anderson, was second in 4:06:04. Barney Oldfield, who drove one of the prettiest road races of his career, was third. Time, 4:09:55.

De Palma was the favorite at the start and held the lead for the first fifty miles when he broke a rocker arm. He laid up at the pit for more than an hour while the part was being replaced, and started again, although hopelessly beaten. Finally, seeing that the pursuit was hopeless, he dropped out.

FLOOD MAROONS ST. LOUIS

Suburbs Are Cut Off From City by Rising Waters.

St. Louis, Aug. 21.—Every automobile road and street car line leading from St. Louis to the surrounding suburban towns has been closed by the rising waters.

In many parts of the city cars were stalled and transportation was completely cut off from many points within the St. Louis limits.

Mayor Kiel ordered street department trucks to take life boats from the city harbor to Maplewood to help in the work of rescue. Policemen borrowed automobile trucks from factories to haul rowboats from the parks to the flooded districts.

A Wabash train from Omaha was stalled north of Delmar station, which is about six miles northwest of the Union station. Most of the passengers left the train before the water got too high for them to get out.

Wire Service Restored and List of Dead Learned to Be Over Score.

Galveston, Aug. 21.—Wire service was restored to Galveston by the Western Union. The first message out of the city since Monday was a dispatch saying Galveston's known loss of life was eight killed in the city proper and twenty-five in the low sections on the western portion of the island. Water service has been resumed. There is plenty of food in the city.

An urgent appeal for aid was sent out by residents of the small villages on the east side of Galveston bay. The appeal said every village was in dire need.

PRESIDENT REACHES DECIDING POINT

Washington, Aug. 21.—Tension increased in official quarters when consular message forwarding affidavits of American survivors of the British liner Arabic brought definite information that the vessel was torpedoed without warning and that probably some Americans had been lost. It seemed that but one point remained to be cleared up—whether the Arabic attempted to ram the submarine or whether a change of the liner's course to assist the already sinking British steamer Dunsley near by was misinterpreted by the German submarine commander as a hostile approach.

The attitude of the American government for the moment is receptive, anxiously awaiting accurate details and reserving judgment whether the action was "deliberately unfriendly." The final decision rests with President Wilson.

The general trend of comment was that the American government had reached the point where it must now decide whether it would sever diplomatic relations with Germany.

A dispatch from Berlin says:

"News of the sinking of the Arabic caused great nervousness, the foreign office fearing it would lead to serious difficulties with Washington."

SOLDIERS WORK IN PARIS

French Men Afforded a Rest by Change to Army of Production.

Paris, Aug. 21.—To the casual eye the only men of fighting age in Paris, so far, have been the wounded. But now it is different. The entire redistribution of the forces of France, necessitated by the enactment of the Dalbjez law, is in progress, and thousands of men are being brought in from the front and from the depots back of the lines to serve their country in the production of the material of war, and to be replaced in the trenches by those who lack the skilled technical training to be used in this specialized field.

The Dalbiez law was passed out of the conviction of the French that the war will last at least another winter, and that it is well, in view of the enormous consumption of munitions, equipment, artillery and foodstuffs rendered essential by the nature of this siege warfare, to organize the entire nation on the lines of a long campaign conducted at the highest level of technical efficiency.

Horrors Perpetrated by Turks.

London, Aug. 21.—A dispatch from Petrograd says: "Almost unbelievable details of Turkish massacres of Armenians in Pitlis have reached Petrograd. In one village 1,000 men, women and children are reported to have been locked in a wooden building and burned to death. In another large village only thirty-six persons, it is said, escaped massacre. In still another instance, it is asserted that several score of men and women were tied together by chains and thrown into Lake Van."

Entente's Offer to Bulgaria.

Rome, Aug. 21.—The entente powers, according to a positive statement made by the Sofia correspondent of the Giornale D' Italia, have offered to Bulgaria that part of Macedonia given to it by the Servo Bulgarian treaty of 1912, with the right of immediate occupation. The controversy over the part of Macedonia contested by Servia and the cause of the second Balkan war will be settled after the present war ends. Proportionate compensation is to be given to Servia.

German Submarines Busy.

London, Aug. 21.—Fourteen steamers, with a total gross tonnage of 47,698, have been sunk in the last forty-eight hours by German submarines. This total, which establishes a record for so short a period, was more than twice as heavy as that levied by underwater craft in the preceding week. Three other vessels reported torpedoed may add another 16,965 tons to the aggregate destroyed in the last two days.

Levee at East Alton Gives Way.

Alton, Ill., Aug. 21.—The levee of Wood river at East Alton gave way and sent floodwaters rushing through the streets, tearing down barns and small homes and forcing the occupants of larger dwellings to upper stories for safety. Appeals for motor boats and skiffs to rescue hundreds of marooned persons were sent to Mayor Beal of Alton.

Break Between Italy and Turkey Near.

Rome, Aug. 21.—A rupture of relations between Turkey and Italy is considered imminent. Delay in action on Italy's part is ascribed to her desire to do her utmost to conserve the interests of Italians who still remain in the Ottoman empire, who are now estimated at 12,000 in number.

DISEASES.

Unfortunately, is the lot of most of mankind, and most people in some measure are resigned to its appearance.

It is indeed surprising to observe the length of time that even functional troubles are tolerated. Of course if the disease is accompanied by much pain, a physician is called upon but, in cases where pain is practically absent the sufferer goes on enduring the affliction often neglecting himself until too late to be cured.

Dr. Prettyman, the specialist, invites those suffering from obscure and chronic to consult him and learn the nature of their trouble and what he can do for them. You can consult him at the Linville Hotel, on Monday, August 23.

In the various Missouri good road funds there was $437,158.49 August 2, contributed from the following sources: Motor licenses, $243,530.61; sale of option stamps, $39,231.97; general road fund $54,626.70; and corporation tax, $100,770.21.

Ozark poultry finds a market in all parts of the country. More than $5,000,000 worth of poultry and eggs was shipped out of Springfield alone during 1914, with destination from coast to coast.

BAPTISTS RALLY FOR ANNUAL MEET

GOSPEL TEAMS TOUR DISTRICT AUG. 29 TO BOOST SESSION.

EXPECT 300 AT 3-DAYS MEETING NEXT MONTH

Prominent Leaders in Work Will Address Laymen and Delegates at First Baptist Church Here.

Preparations are under way for the annual meeting of the Northwest Missouri Baptist Association, to be held in the First Baptist church here, September 7, 8 and 9. The association comprises about thirty-five Baptist churches and affiliations of Nodaway, Holt and Atchison counties and the north part of Andrew county.

Between 300 and 400 Baptist leaders of the association are expected to attend the three days' session. It will be presided over by Representative Charles Hyslop of this city, who is moderator, or president of the association. James S. Gore of Rock Port is secretary, while a board of missions has charge of arrangements for the meetings.

The sessions will be along the usual lines, the objects being to transact the usual routine of business and consider moves for greater advancement of the Baptist churches and affiliations in the association.

Will Be Special Addresses.

One of the "imported" speakers of the session will be Dr. C. D. Miller, president of the Central Baptist association, of Kansas City. He will speak to the laymen of the churches at the special laymen meeting on Wednesday night, September 8. The Rev. A. M. Kirchland of Forest City, district superintendent, will also speak and be in charge of the meetings.

This is the first time the association has held its annual meeting in Maryville for four or five years.

A general rally to create interest and enthusiasm in the district for the association meeting here next month will be conducted by the Baptist leaders of this church Sunday, August 29, under the direction of Dr. Karl Malotte.

Plan Rally for August 29.

Three gospel teams, made up of the leading men workers of the local Baptist church, will conduct several meetings each that day. They will take on workers from each of the places visited, and bring them to Maryville that night to attend the general rally to be held in the First Baptist church, beginning at 7 o'clock. Although it will take the place of the regular Sunday night services, it will be along different lines. Instead of a sermon by the Rev. Lewis M. Hale, pastor, there will be several talks by the principal workers of the district.

One of the gospel teams under the direction of District Superintendent Kirchland will go to New Hope church, six miles northeast of Hopkins, for a special rally service at 9 a. m.; then to Hopkins for a meeting at 11 a. m.; to the Central Friendship church, thirteen miles northwest of Maryville, at 2 p. m., and Clearmont church at 4 p. m.

Another gospel team, under the direction of Prof. W. M. Westbrook, will hold a special meeting at the Platte Valley church, south of Bolckow, in Andrew county, at 9 a. m.; at two more Baptist churches in the north part of Andrew county.

To Pick Team Members Soon.

The third gospel team, directed by Senator Anderson Craig, will go to the White Cloud church, southwest of Maryville, for special service at 9 a. m.; to Graham at 11 a. m.; High Prairie, southwest of the city, at 2 p. m., and to the Old Bethel church, near Elmo, at 4 p. m.

The members of the three gospel teams have not been definitely selected yet, but will be chosen soon.

The rally next Sunday takes the place of the one to have been held several weeks ago, but which was postponed on account of the weather and road conditions.

Dinner and supper may be served at the church to the visiting delegates to the association meeting here.

Police Recover Bodies of Dead Following Hurricane—Many Can't Reach Business Section.

Special to The Democrat-Forum.

St. Louis, Aug. 21.—Ten bodies have been recovered by the police from the section of the city that were flooded when the hurricane storm struck here Thursday night. The receding waters have permitted rescuers to make a thorough search of the houses in the flooded area.

Hundreds of persons over the city are still unable to reach the business section yet, on account of the overflow waters, but conditions are improving.

St. Louis, August 21.—Eight of the dead in St. Louis from the storm which swept here yesterday were negroes. Considerable damage done by the overflowing of Wood river and Cahoka creek.

Many residents of Alton and Edardsville are imperiled by the floods.

Wood river left its banks, flooding the towns to a depth of ten feet in places. Warnings sent down the valley of the coming flood resulted in everybody being able to escape, it is believed.

The rainfall in two days has been eight inches. Militia is aiding in rescue work.

The four-team base ball tournament which ended at Hopkins yesterday afternoon after a three days' contest, in which each team played three games, was "easy picking" for the Maryville Federals, one of the contesting teams. As a result the Fed treasury is $125 the richer, having won first prize.

The Maryville Federals won each of the three games, first from Clearmont, second from Hopkins, and last from Bedford, Ia. Clearmont came out second, thereby winning second prize of $100; Hopkins closed by taking third prize of $75, while Bedford held the sack and got a measly $50.

A base ball tournament is to be held at the Normal grounds here next Wednesday, Thursday and Friday, between four teams of Nodaway county, Cleve Funk, manager of the Fed team, announces. A final solicitation for the guarantee fund is being made today. The teams which will enter the tournament have not been definitely selected.

In the first game yesterday afternoon Hopkins was defeated by the Clearmont team by a score of 6 to 7.

In the second game, between Maryville Feds and Bedford, Willey, pitching for the local team, struck out eighteen men out of twenty-nine who faced him, and allowed but one hit. Only two Clearmont men got on first base during the game. That being in the second inning, on the lone hit and an error by Lynch, playing second base.

A feature of the game yesterday was the usual home run hit by Richardson, catcher, in the eighth inning. It resulted in the last two runs, Richardson scoring Lynch, who got to first on an error and stole second, also himself. The drive was in the usual place—to deep center field.

The first score came in the third inning, when Tilson took first on an error, got to second on a single by McClain and came home on a double by Palfreyman.

The next score was in the seventh, when Lynch doubled and went to third on a fly ball to right field by Richardson and scored on a passed ball.

Rickard of Creston succeeded James McClymens as umpire yesterday, on complaint of Hopkins. The score:

TEUTONS CORNER 200,000 RUSSIANS

REPORT GERMANS ARE CUTTING OFF RETREAT OF SLAVS.

PRESS IN ON BREST LITOVSK; FALL NEAR

Invaders Continue Advance on Entente's Eastern Aid—Last Victory Released Reinforcements.

Special to The Democrat-Forum.

Berlin, August 21.—The Germans have invested Brest-Litovsk on three sides and are shelling the fortifications with heavy guns. The fall of this last Russian stronghold in Poland is expected soon. It is the chief military depot and concentration camp of Russia.

The capture of Novo Georgievsk released 150,000 soldiers, which can now be used for the assault on Brest-Litovsk and elsewhere. The Russians still hold Grodna and Oscowiec.

Vienna, August 21.—Dispatches from the front say that two hundred thousand Russians in and near Brest-Litovsk are being cut off from retreat by the Teutonic forces, and that the fall of that fortification and the capture of the Russian soldiers is only a matter of time.

Berlin, August 21.—It is announced that the Germans have captured Beilsk, thereby blocking all efforts of the Russians to rush additional troops to Brest-Litovsk. German advance all along the lines continues.

BULGARS A MENACE

BULGARIA BREAKS ALL NEGOTIATIONS WITH TURKEY, REPORTED.

BOTH READY FOR WAR

Ottomans and Balkan State Country Are Concentrating Armies Along the Line.

Special to The Democrat-Forum.

London, August 21.—It is reported that all negotiations between Turkey and Bulgaria have been broken. Both countries are concentrating large armies near the border, prepared to begin assaults at once.

That Bulgaria will soon strike for the allies, is indicated in all reports from Balkan state points. As Bulgaria borders along the entire west line of Turkey-in-Europe, it would be a serious menace to Turkey. Adrianople lies within a few miles of the Bulgarian border.

IS CHARGED WITH ASSAULT

John McGuire, Pickering, Struck Alonzo Fine Week Ago, State Alleges—Released.

John McGuire of Pickering, charged by the state with having assaulted Alonza Fine at Pickering last Sunday, following a quarrel, voluntarily gave himself up to Deputy Sheriff Dee Callahan this morning, and gave bond for $200 for his appearance in circuit court here next month on a charge of common assault. C. L. Epps went his security for bail.

The two young men were fairly good friends, but got to quarreling about a trifling matter, it is said, when McGuire struck Fite.

FIND DARDANELLES HARD NUT

British Officers Conclude Allies Will Have Hard Time to Take Turk Stronghold.

Special to The Democrat-Forum.

London, August 21—Matters are progressing slowly in the Dardanelles and it is likely to prove a very tough job. Such was the conclusion of two transport officers who arrived in London this week from the Mediterranean. One of them said:

"The recent incursion into Mediterranean waters of German submarines has undoubtedly complicated matters. As a result the fleets have been forced to quit the Gulf of Saros and take up their quarters off Lemnos, where they are protected by the steel nettings.

"Already the German submarines have been caught in the nets at the Dardanelles. One was the vessel which had tornedoed the Majestic and the Triumph. Both the submarine and crew were taken by Malta, her German commander, saying that had it not been for the lack of torpedoes he would have sunk the whole of the allied fleet, as not a soul had suspected the presence of submarines there. Which was true.

The loss of life when the Manitou was struck was due entirely to the capsizing of a boat. The men simply stampeded over the side and jumped into the water. So great was the panic that although machine guns and ammunition were in position on deck, it never occurred to anyone to use them against the enemy boat.

Another unexpected element contriubted to add to the scare. This was due to the discovery of a number of German stowaways on board just as the troops were about to be disembarked. They had boarded the vessel at Alexandria and as soon as they were discovered they disappeared mysteriously.

Transports do not go by night any longer to Sedul Bahr, but transship the troops at Lemnos on board small, swift boats which run them across to the peninsula.

Charles McIntire, Hopkins, Sues Burlington for Alleged Injuries and Damage on Crossing.

Suit for $2,000 damages was filed in circuit court today by Charles McIntyre of Hopkins, against the Burlington railroad, for the wreckage of an automobile valued at $600 and injuries to himself, when a Burlington train struck his car at Hopkins August 13, 1914. McIntyre says he was crossing the tracks on Barnard street, in Hopkins a year ago when without warning, the automobile was struck and overturned.

He says the car was demolished and that he was thrown to the ground and bruised.

PLAY CLARINDA TOMORROW

Maryville Federals Will Contest With Fast Iowa Team Here—Won Last Time.

The Maryville Federals will play the fast base ball team of Clarinda, Ia., at Federal park here at 3 o'clock tomorrow afternoon. The Feds defeated the Clarinda team here on June 27 by the score of 9 to 4, but it is reported that the Iowans have strengthened considerably since them, so that a really close game is anticipated.

The Feds will have nearly the usual lineup, Willey being in the box and Richardson behind the batter. Tilson will continue the nifty work on the initial base, Lynch of Stanberry may play second base; Scott will play third, Palfreyman shortstop, while Miller, Carmichael, McClain and Morse will be candidates for the outer pasture work.

The Clarinda team will probably have Towne, who pitched here the other time, in the box, or perhaps that nifty pitcher by the name of Galloway.

HOME DAMAGED BY STORM

P. J. Gallagher of Houston, Texas, Suffers Heavy Loss—Formerly Lived at Maryville.

The home of Mr. and Mrs. P. J. Gallagher of Houston, Texas, former Maryville residents, who have been living in Texas for several years, was badly damaged during the recent storm which swept over the Texas coast cities. None of the Gallagher family were injured. The news of the damage to their home was received in a letter written to Mrs. Gallagher's parents, Mr. and Mrs. M. Tobin, of West Cooper street.

The Gallaghers built their home about two years ago. It cost about $8,000 and is in one of the best residence districts of the city and this district was the one that was almost devastated in the storm. A part of the roof was blown off and the entire contents of the house and the interior finishings were completely ruined. Mrs. Gallagher wrote that their own loss, heavy as it was, was much lighter than the most of their neighbors. She had not learned at the time of writing, the extent of the damage in the business section.

Mrs. Gallagher and children had returned to their home about three weeks ago from a visit in this city with her parents, and with her sister, Mrs. J. B. Cummins.

ARABIC CASE MAY FORCE U. S. TO ACT

ADMINISTRATION ADMITS CRISIS WITH GERMANY IS NEAR.

NOW UP TO BERLIN TO EXPLAIN; AWAIT REPLY

Washington Officials Anxiously Seek Details of Torpedoing of Vessel With Americans Aboard.

Special to The Democrat-Forum.

Washington, August 21.—President Wilson and Secretary of State Lansing are conferring this afternoon on the Arabic situation. The American ambassador at Berlin has been instructed to ask the German government if it wishes to explain relative to the sinking of the Arabic, causing the loss of American lives.

Washington, August 21.—It is frankly admitted that the crisis between the United States and Germany, following the Arabic sinking, with American passengers aboard, is serious.

The administration is suspending judgment until official investigation is made, but views with alarm the increasing activity of the submarines, fearing that the German party favoring the sinking of all ships, regardless of passengers, is in the ascendency.

It is considered certain that the American ambassador must leave Berlin unless Germany disavows the sinking of the Arabic or offers a legal excuse.

The administration does not want to call on extra session of congress now, through fear that it would be a menace, rather than a benefit to the continuance of peaceful relations, but many prominent in the administration are bringing pressure on the president for immediate action rather than words.

London, August 21.—The White Star offices here today announced that forty-five passengers drowned when the Arabic went down off the south coast of Ireland Thursday, when torpedoed by a German submarine. It is not believed that any still missing will be found alive.

Two bodies were found in lifeboats five miles from where the Arabic sank. The search for bodies is being continued.

It is understood that the Arabic carried between $10,000,000 and $15,000,000 worth of American securities for New York houses.

London, August 21.—The government has announced that the Arabic was not being convoyed when torpedoed by a submarine.

American Ambassador Page is taking statements of survivors for the purpose of furnishing the U. S. government with the real facts leading up to the sinking of the Arabic. All agree that there was no warning given.

New York, August 21.—White Star line officials announced this afternoon that Fred Burgess and wife, are also missing, making four Americans lost when the Arabic was sunk.

Thirteen British merchant vessels of a gross tonnage of 22,970, fell victim to the German war zone decree, during the week ending August 18. Two were mined and eleven sunk by submarines. Some small fishing vessels also were sunk.

More than thirteen vessels, most of them of good size, have been sunk since August 18.

German submarines have caused the death of 1,736 civilian non-combatants, including 118 Americans, since German warfare on merchantmen was formally launched February 18.

The Lusitania death toll of 1,157 on May 7 was the largest. The liner Falaba was sunk March 28 with a loss of 111 lives.

England needs more fly swatters.

Its tough when a flood causes a water famine.

Where are all those torpedo boats Great Britain was going to chase the submarines with?

Chester Bennett must feel relieved that he doesn't have to be reappointed city clerk next month.

St. Louis had a 5.2-inch rain in sixteen and a half hours and calls it a flood. Maryville had a 6.8-inch rain in twelve hours and regarded it as a normal shower.

Just when Uncle Sam was getting public opinion rocked into quiet, and it was getting over its colicky spell, up comes another German submarine and down goes another ship with Americans on board. This creates a very delicate situation. It is the only answer Germany has given to the last vigorous protest sent by our government against sinking ships carrying Americans without giving them a chance for life. According to the reports so far received the Arabic was given no warning of the intentions or presence of the submarines. Passengers were therefore given no more chance than in the case of the Lusitania, and it was only because of extra advance prepartions that a great loss of life was avoided. The Arabic was coming toward the United States and carried no war munitions or contraband goods. Americans who were on board were, of course, coming toward their own country. The American people and the American government have hoped and still hope that there will be no rupture of friendly relations between the United States and Germany, but each of these accumulating incidents can but serve to add to the already broad suspicion that the German government does not share in this solicitude. It is a matter to which the administration must continue to give its prayerful consideration, and the people must support it in whatever follows.

GEORGIA ON TRIAL.

It has now been made clear what amount of courage and nerve Ex-Governor Slaton of Georgia exhibited when he acted upon his own judgment and sense of justice and commuted the sentence of Leo Frank to life imprisonment. He acted in defiance of the blood thirsty mob that has disgraced the state. It was the same mob that threatened his life if he did his duty as he saw it, and it is the same mob that still threatens him for having done so.

It remains to be seen whether the present governor has the courage to begin and carry through a house cleaning and rid the state of this disgraceful blot. He has ordered an investigation, but whether it is to be real or nominal is yet to be seen. It is very probable that scores of men know to a certainty who some or all of the men were who openly defied law and order in their thirst for blood. He can make a good beginning by changing the prison officers who made it possible for a few men to take a defenseless man from their custody without a struggle.

It makes no difference now whether Frank was guilty or not. He had been convicted and had begun to serve a life sentence under the protection of the state of Georgia. Every man who in any way aided or abetted in hanging him without the sanction of law is guilty of murder. That much is certain and admits of no argument.

Ott-Wells.

The following account of the marriage of Mr. Charles Edwin Wells, librarian of the State Normal school, and Miss Lulu Elizabeth Ott of Gardner, Kan., which was announced exclusively in The Democrat-Forum on August 12, is taken from the Olathe (Kan.) Mirror of the 12th inst.:

A quiet wedding took place at the home of William J. Ott and wife at Gardner, August 8th, at 8 p. m., when their youngest daughter, Miss Lulu Elizabeth, was united in marriage to Charles Edwin Wells of Maryville, Mo.

"Before the ceremony Miss Lena Moore sang "Give Me Your Hand, Love," followed by "O Promise Me," sung by Miss Helen Ott, niece of the bride. The bridal couple entered the room to the strain of the Lohengrin wedding march, played by Miss Amy Moore, and took their places before a bank of ferns and potted plants.

The ceremony was performed by Dr. Davis, pastor of the Presbyterian church at Gardner, of which the bride has been a faithful and efficient member for a number of years.

The bride looked very lovely in her wedding gown of white net and lace. She carried a large shower bouquet of pink Killarney roses. The groom wore the conventional black.

Only relatives of the bride and a few of her most intimate friends were present. The happy couple left immediately for California, where they will visit the fairs at San Diego and San Francisco, after which they will visit friends in Washington and Oregon. On their return from their trip they will make their home in Maryville, Mo., where Mr. Wells has a position in the State Normal school.

Miss Ott is one of Gardner's most highly esteemed young ladies. She is also well known in Olathe. As a musician she probably is not excelled in Johnson county, and her music pupils regret to see her leave for her new home. The groom is not so well known here, but judging from the kind of a husband Miss Ott would choose, he is of sterling quality. They were classmates in Park college and were graduated with the class of 1903.

GIVES 10 SONS TO ARMY; 3 DIE

French Woman Sees Brave Scions Drop, One by One, on Battle Field.

Special to The Democrat-Forum.

Paris, August 21.—One French family has given ten sons to the army, three of whom have already fallen on the field of honor. The first to fall was the eldest, Lieutenant Joseph de L——. He met his death on the morrow of a mention in dispatches for conspicuous bravery. Then fell one of the twins, Albert and Antonie, who had been fighting in the same regiment side by side. The survivor writes:

"My poor, poor mother."

"Yesterday, at 4 in the afternoon, I saw my poor twin brother fall at my side with a bullet in the head. He had done his duty but too well. He was always exposing himself. He died in my arms. We avenged him. No German could reach us. One hundred lay where they fell before our rifles."

Later it is proud news that reaches the mother of heroes. Her daughter-in-law writes:

"I have just learned that Louis has received the Cross of the Legion of Honor. General Joffre himself decorated him, and gave the accolade."

A month, and death again knocked at the door. Louis, the newly decorated hero, has fallen at Notre-Dame-de-L rette. Yet the spirit of the family is not broken.

These cruel losses, writes another son, Guy de L., volunteer soldier, must only serve to strengthen our courage and our firm resolve to avenge them.

CALL HIM COWARD; SUICIDES.

British Youth, Taunted by Women for Not Enlisting, Takes Life.

Special to The Democrat-Forum.

London, August 21.—One of the so-called "white feather" brigade was so much worried by the attacks made on him by the taunts of the women that he has just committed suicide at his home in Shepherd's Bush. He was a chauffeur named Richard Charles Roberts, and it was said at the coroner's inquest that he had tried to enlist, but had been rejected on account of a weak heart. This of itself had depressed him, but when some women taunted him and called him a coward, life became unbearable to him.

The Shepherd's Bush coroner gave some of these women a lecture. He described their conduct as abominable, and added:

"Here was a man who was driven to death by a pack of silly women, who knew nothing about the circumstances which had prevented the deceased from becoming a soldier."

Don't Forget It, Here's One of The Big Features of a Mighty Big Fair

CAPT. J. H. WORDEN, With His Moisant Military Monoplane

The Seige of Liege

The Greatest Aerial Bombardment—Reproducing a real battle in the clouds and the destruction of a Fort! See at Home what occurs in Europe daily. Exciting and instructive. This act is a thriller and highest priced aeroplane attraction before Amercan people.

HERE'S A FEATURE that alone is worth coming many mil-s to see. For it isn't very often that you get to see an aeronaut like Capt. Worden, the kind who is spactacular and instructive as well. In these days of scientific flying it isn't the aviator who takes the greatest chances that proves the most popular with the spectators.

NOW CAPTAIN WORDEN combines the spectacular with the practical and educational. He thrills you with brilliant flights and reproduces for you scenes like those that are taking place in the great war in Europe every day.

HIS "SEIGE AND FALL OF LIEGE" makes probably the most individual piece of fireworks ever attempted. The fiery attack from the air, the return fire of the guns and the explosion of the Fort—reproduces for you one of the greatest battles of history, the capture of the great Belgian Fort by the Germans.

THE FACT that the big Texas and Oklahoma State Fairs will have Captain Worden to give exhibitions, and after the officials of these fairs had made investigations as to the ability of a number of other well known fliers, ought to be proof enough of what a big feature this is for the Maryville Fair.

AND REMEMBER THIS The Big Maryville Fair isn't depending on one or two features. Something Big Every Day that will make it really worth your time. There's fearless Blondin, the real one ring circus, J. K. Wright, the baloon man, the Four Casters and the Peerless Potters Family. Every one a high class entertainment. Read about them from time to time.

Do You Want A Farm in The West? Homestead One From The Goverment

Is the United States overcrowded? Or is there still a chance for the man of pioneer spirit to "go west" and make his living from free land, as in the old days?

A partial answer to these questions is found in the recent action of Secretary of the Interior Lane opening to entry, under what is known as the enlarged homestead act, areas of land in Montana, Idaho, Oregon, Utah and other states. Nearly 100,000 acres in Eastern and Central Montana, for instance, were made subject to entry.

A man can go there and "stake a claim" just as in the old days. He can obtain 360 acres, and, after living on it three years, can establish a title to it. But the thing is not as easy as it looks on paper.

The homestead act was designed to give hard-working men homes. It was worded in such a way that it would be of no benefit to lazy men. When a man takes up 360 acres he must cultivate one-sixteenth of it, or else, after his three years' probation is over, he is unable to perfect his title.

But even though a man be willing to work hard and long, how is he going to go about getting the land. This, probably, is the hardest part. One of the bureaus of the Department of the Interior is known as the General Land Office.

This office says frankly that it furnishes no more definite information as to the location or character of the vacant land than is found in a simple table, stating how much land is available in the different counties of the various states, with a few words designating the general character of the land, such as "broken grazing," "prairie grazing," "good for farming," "semimountainous with fertile valleys," "timber," etc.

Persons who desire to make homestead entry should first decide where they wish to locate, then go or write to the local land office of the district in which the lands are stiuated and obtain from the records diagrams of vacant lands. This advice is given by the General Land Office in Washington, which has general charge of such matters.

If a homestead seeker wished to make thorough preparations he might then pick out the state and county in which he wants to locate and write to the Department of Agriculture for a description and analysis of the soil. Finally, in case he meets any difficulty in getting advance information, he can write to his representative in congress. But in any event, before he can make a real start in the new venture, he must make a personal inspection of the land.

Circular 335, which should be asked for in addition to circular 290, gives a general list of the vacant lands in the United States which may be entered under the enlarged homestead law. There is a total area of 290,753,133 acres subject to entry in different states.

PROPER WAY TO MAKE COFFEE.

Beverage Requires Care in Its Preparation of One Would Have Best.

All the world loves a good cup of coffee. The average housekeeper seems to think, however, that all that is necessary is to put in the coffee pot coffee, and a little hot water, and let it take care of itself, to come to the table as luck determines, either palatable or so muddy and weak as to be undrinkable.

While a percolator is best for making the beverage, as it can then be made at the table and boiling water assured, still good coffee is made in the old-fashioned coffee pot. Be sure that the coffee is properly ground and roasted, and do not have it ground too fine, as when too finely ground it makes muddy coffee, and be sure to put into the pot a tablespoonful of coffee for each cup to be served, and one for the pot. Settle with a part of an egg, and use boiling water, allowing the coffee to boil for a few seconds. Do not use a whole egg each day for clearing coffee. Break a small hole in the end of the shell and use only a part of the egg. Then wrap the egg in a cloth and keep it in a cup in a cool place. It will then serve for several days. Some housekeepers mix well-beaten eggs with a pound of coffee and let dry in a warm oven, taking care not to burn by stirring often. This makes coffee taste just as good as if it were added just before using, and saves trouble.

If you use a percolater, fill the upper part with the coffee, press it down firmly, then gradually pour on the boiling water, having previously measured the amount required. Put on the lid and let the liquid run through, remembering that the slower the water is added the better the coffee. For cafe noir a tablespoonful of ground coffee should be allowed for each sup.

EARL COOPER WINS ELGIN ROAD RACE

Gil Anderson Second and Barney Oldfield Third In Auto Run.

Elgin, Ill., Aug. 21.—Earl Cooper, driving an American made car at the rate of 74.97 miles an hour, won the Chicago Automobile club trophy road race. His time for the 301 miles was 4:01:32. His team mate Gil Anderson, was second in 4:06:04. Barney Oldfield, who drove one of the prettiest road races of his career, was third. Time, 4:09:55.

De Palma was the favorite at the start and held the lead for the first fifty miles when he broke a rocker arm. He laid up at the pit for more than an hour while the part was being replaced, and started again, although hopelessly beaten. Finally, seeing that the pursuit was hopeless, he dropped out.

FLOOD MAROONS ST. LOUIS

Suburbs Are Cut Off From City by Rising Waters.

St. Louis, Aug. 21.—Every automobile road and street car line leading from St. Louis to the surrounding suburban towns has been closed by the rising waters.

In many parts of the city cars were stalled and transportation was completely cut off from many points within the St. Louis limits.

Mayor Kiel ordered street department trucks to take life boats from the city harbor to Maplewood to help in the work of rescue. Policemen borrowed automobile trucks from factories to haul rowboats from the parks to the flooded districts.

A Wabash train from Omaha was stalled north of Delmar station, which is about six miles northwest of the Union station. Most of the passengers left the train before the water got too high for them to get out.

GALVESTON BACK ON MAP

Wire Service Restored and List of Dead Learned to Be Over Score.

Galveston, Aug. 21.—Wire service was restored to Galveston by the Western Union. The first message out of the city since Monday was a dispatch saying Galveston's known loss of life was eight killed in the city proper and twenty-five in the low sections on the western portion of the island. Water service has been resumed. There is plenty of food in the city.

An urgent appeal for aid was sent out by residents of the small villages on the east side of Galveston bay. The appeal said every village was in dire need.

PRESIDENT REACHES DECIDING POINT

Washington, Aug. 21.—Tension increased in official quarters when consular message forwarding affidavits of American survivors of the British liner Arabic brought definite information that the vessel was torpedoed without warning and that probably some Americans had been lost. It seemed that but one point remained to be cleared up—whether the Arabic attempted to ram the submarine or whether a change of the liner's course to assist the already sinking British steamer Dunsley near by was misinterpreted by the German submarine commander as a hostile approach.

The attitude of the American government for the moment is receptive, anxiously awaiting accurate details and reserving judgment whether the action was "deliberately unfriendly." The final decision rests with President Wilson.

The general trend of comment was that the American government had reached the point where it must now decide whether it would sever diplomatic relations with Germany.

A dispatch from Berlin says: "News of the sinking of the Arabic caused great nervousness the foreign office fearing it would lead to serious difficulties with Washington."

SOLDIERS WORK IN PARIS

French Men Afforded a Rest by Change to Army of Production.

Paris, Aug. 21.—To the casual eye the only men of fighting age in Paris, so far, have been the wounded. But now it is different. The entire redistribution of the forces of France, necessitated by the enactment of the Dalbiez law, is in progress and thousands of men are being brought in from the front and from the depots back of the lines to serve their country in the production of the material of war, and to be replaced in the trenches by those who lack the skilled technical training to be used in this specialized field.

The Dalbiez law was passed out of the conviction of the French that the war will last at least another winter, and that it is well, in view of the enormous consumption of munitions, equipment, artillery and foodstuffs rendered essential by the nature of this siege warfare, to organize the entire nation on the lines of a long campaign conducted at the highest level of technical efficiency.

Horrors Perpetrated by Turks.

London, Aug. 21.—A dispatch from Petrograd says: "Almost unbelievable details of Turkish massacres of Armenians in Bitlis have reached Petrograd. In one village 1,000 men, women and children are reported to have been locked in a wooden building and burned to death. In another large village only thirty-six persons, it is said, escaped massacre. In still another instance, it is asserted that several score of men and women were tied together by chains and thrown into Lake Van."

Entente's Offer to Bulgaria.

Rome, Aug. 21.—The entente powers, according to a positive statement made by the Sofia correspondent of the Giornale D' Italia, have offered to Bulgaria that part of Macedonia given to it by the Servo-Bulgarian treaty of 1912, with the right of immediate occupation. The controversy over the part of Macedonia contested by Servia and the cause of the second Balkan war will be settled after the present war ends. Proportionate compensation is to be given to Servia.

German Submarines Busy.

London, Aug. 21.—Fourteen steamers, with a total gross tonnage of 47,698, have been sunk in the last forty-eight hours by German submarines. This total, which establishes a record for so short a period, was more than twice as heavy as that levied by underwater craft in the preceding week. Three other vessels reported torpedoed may add another 16,965 tons to the aggregate destroyed in the last two days.

Levee at East Alton Gives Way.

Alton, Ill., Aug. 21.—The levee of Wood river at East Alton gave way and sent floodwaters rushing through the streets, tearing down barns and small homes and forcing the occupants of larger dwellings to upper stories for safety. Appeals for motor boats and skiffs to rescue hundreds of marooned persons were sent to Mayor Beal of Alton.

Break Between Italy and Turkey Near.

Rome, Aug. 21.—A rupture of relations between Turkey and Italy is considered imminent. Delay in action on Italy's part is ascribed to her desire to do her utmost to conserve the interests of Italians who still remain in the Ottoman empire, who are now estimated at 12,000 in number.

DISEASES.

Unfortunately, is the lot of most of mankind, and most people in some measure are resigned to its appearance.

It is indeed surprising to observe the length of time that even functional troubles are tolerated. Of course if the disease is accompanied by much pain, a physician is called upon but, in cases where pain is practically absent the sufferer goes on enduring the affliction often neglecting himself until too late to be cured.

Dr. Prettyman, the specialist, invites those suffering from obscure and chronic to consult him and learn the nature of their trouble and what he can do for them. You can consult him at the Linville Hotel, on Monday, August 23.

In the various Missouri good road funds there was $437,158.49 August 3, contributed from the following sources: Motor licenses, $243,520.61; sale of option stamps, $29,231.97; general road fund $54,626.70; and corporation tax, $109,779.21.

Ozark poultry finds a market in all parts of the country. More than $5,000,000 worth of poultry and eggs was shipped out of Springfield alone during 1914, with destination from coast to coast.
